

University of Valladolid

The **University of Valladolid** is one of the leading centers of higher education in Spain. It is also **one of the oldest public universities in Spain and in the World**, having been founded in the 13th century.

The Language Centre is located in the city of Valladolid (350,000 people) in a **safe and easily accessible area**, providing an ideal setting for learning and practicing the language.

The campus also boasts **many common leisure areas and facilities** such as gardens, bars and cafeterias where you can relax after your Spanish lessons and **chat with other students**.

The program

This is a course designed for **professionals in the healthcare field of level B1 and upwards** who need to acquire communicative skills to function in the health sector.

Teaching and learning will take place both in classrooms at the **Language Center** and in more **practical classroom** situations at the **Faculty of Nursing**.

Particular attention will be paid to learning **specific health-related terminology in real practical contexts**, focusing special attention in cultural aspects.

Participants will be given the opportunity to familiarize themselves with practical healthcare situations in the Spanish healthcare system, involving **close-hand observations in specially prepared rooms**.

This program will be complemented by **socio-cultural activities and trips** outside of the normal class schedule and included in the cost of the course).
